

STATIC PROGRAM ANALYSIS

Lecture 06 - WALA set up.

WALA INSTRUCTIONS

Follow instruction from here (using Eclipse):

Basic steps

1. Make sure to have Gradle installed
2. Import existing Wala branch as a Github project
3. Import it again as a Gradle project
4. Use Gradle to build it

Download WALA-start project similarly to WALA

1. Run basic analysis: class hierarchy.

NEXT TIME

Implementing this pseudo-code of Reaching definitions in WALA
