

STATIC PROGRAM ANALYSIS

Lecture 07 – Data-flow
framework

REACHING DEFINITION ANALYSIS IN WALA

Pull update from static-program-analysis

Import our static-program-analysis as a grade (the same as WALA and WALA-start)

`-scopeFile scope/helloworld.txt -entryClass dataflow/HelloWorld -mainclass main`

Using CFG, map data-structures and flow infos explore analysis execution and progress.

NEXT TIME

3 new optimization data-flow analysis

Define all four classical flow analysis as an instance of a formal data-flow framework
